

REMARKS

Claims 34-43 are pending in the subject application.

Applicant has canceled claims 1-33 in favor of new claims 34-43. Support for the features recited in the new claims can be found in Applicant's specification at, for example, page 23, lines 13-21, page 27, line 6 through page 29, line 4, and page 30, line 22 through page 33, line 7.

In the Office Action, former claims 1-33 were rejected under 35 U.S.C. § 102(e) as being anticipated by *Saito et al.* (U.S. Patent Application Publication No. US 2004/0073697 A1). Applicant has analyzed the *Saito et al.* reference and has incorporated the results of that analysis into the drafting of new claims 34-43. As such, Applicant respectfully submits that the *Saito et al.* reference does not disclose each and every feature recited in claims 34-43. Accordingly, claims 34-43 are believed to be patentable under 35 U.S.C. § 102(e) over *Saito et al.*

In view of the foregoing, Applicant respectfully requests examination of claims 34-43, and submits that these claims are in condition for allowance. In the event a telephone conversation would expedite the prosecution of this application, the Examiner may reach the undersigned at (408) 749-6902. If any fees are due in connection with the filing of this paper, then the Commissioner is authorized to charge such fees to Deposit Account No. 50-0805 (Order No. NGBCP006).

Respectfully submitted,
MARTINE PENILLA & GENCARELLA, LLP
